

Who is Baba?

Baba, a notable figure, serves as the founder of Kiseki and Dyorbox.

What is Kiseki?

Kiseki stands as a pioneering project within the Cardano ecosystem. It notably represents the first AI meme project on Cardano.

What exactly is an AI meme?

An AI meme is a specific category of memecoin centered around artificial intelligence. In the case of Kiseki, it was conceived and brought to fruition by Bittensor.

And what about Dyorbox?

Dyorbox aspires to evolve into the central hub of the Cardano community, offering a comprehensive platform where users can engage in various activities such as token swapping, accessing pre-investment information, contributing data to showcase support for favored projects, and much more.

Who is Jupiter?

Jupiter, an influential figure within the Cardano ecosystem, played a significant role in the initial stages of Kiseki. However, it's important to note that he is no longer associated with the project.

Who is Shillmo (Alexander Legolas)?

Shillmo, also known as Alexander Legolas, is another influential figure within the Cardano community. He was an early and avid supporter of Kiseki, contributing significantly to the advancement of Dyorbox.
